

Cast of the worldly fears,
Life's burdens fearless bear -
Arthae of life in the we find
One source of being

In nature's gifts

Drum

The elements of Nature spring
The life power by each living thing
That breathes the vital air

Then feast the hope ^{that} when life ^{has} fled

And when ~~your~~ fitful glow has fled

That all which ^{carries} strength and power
Unites again

Reuniting with its parent source

Will smile and
As up ring around

And hope when life has run its course
Then grasp the hope that at life's close
That all that gave us strength and power
Writing with its parent's service
Shall glow as stars
Or sweetly
